Math 3150, Section 1, Analysis I, Fall 2016 — Syllabus

Monteith 112 — Monday, Wednesday, Friday, 10:10 – 11:00

This syllabus contains the policies and expectations that the instructor has established for this course. Please read the entire syllabus carefully before continuing in this course. These policies and expectations are intended to create a productive learning atmosphere for all students. Unless you are prepared to abide by these policies and expectations, you risk losing the opportunity to participate further in the course.

Instructor: Prof. Matthew Badger (`matthew.badger@uconn.edu`)
Office: Monteith 326
Office Hours: Tuesdays 2:00–3:15pm, Wednesdays 1:25–2:15pm. ***Not available:*** *10:10am–1:10pm daily*

Course Description

A rigorous introduction to the real numbers, sequences in $\mathbb{R}$, numerical series, continuity, the derivative, sequences and series of functions, and the Riemann integral. This course assumes that students are already familiar with writing mathematical proofs (e.g. having taken Math 2710).

Required Resources

- **Course Webpage:** `www.math.uconn.edu/~badger/` → Link to Math 3150, Section 1
- **HuskyCT:** `huskyct.uconn.edu` — for class announcements and grade sheet
- **Textbook:** Pons, Matthew A. Real analysis for the undergraduate. With an invitation to functional analysis. *Springer, New York,* 2014. Chapters 1–7 excluding last section per chapter.

Graded Components

- **Homework**: Homework will be assigned frequently throughout the course on the course website and collected in class on Wednesdays. You may work on assignments with other students, but each student should write her or his own solutions. Typed homework assignments are encouraged.
- **Chapter Tests**: There will be "chapter tests" for Chapters 1–5. Two of these will be in class exams and the remaining three will be take home exams. Test dates and formats to be announced.
- **Final Exam**: comprehensive, written final exam as scheduled by the Registrar.

The *final grade* for the class will be based on your course average (see below) and your progress in the course. Your *course average* will be determined by the following calculation:

- 20% Homework, 50% Chapter Tests (10% Each), 30% Final Exam

If you do better on the final exam than you did on earlier tests, this will *positively effect* your final grade.

Disability Support Services

If you have a physical, psychological, medical, or learning disability that may impact your course work, please contact the Center for Students with Disability:

⟨`http://www.csd.uconn.edu/`⟩.

They will determine with you what accommodations are necessary and appropriate. All information and documentation is confidential.

Academic Integrity

Each student must pursue his or her academic goals honestly and be personally accountable for all submitted work. Representing another person's work as your own is always wrong. Faculty are required to report any suspected instance of academic dishonesty to Community Standards. For more comprehensive information on academic integrity, please refer to the Undergraduate Academic Integrity Policy:

⟨`http://community.uconn.edu/the-student-code-appendix-a/`⟩.

Syllabus Revision

The standards and requirements set forth in this syllabus may be modified at any time by the course instructor. Notice of such changes will be by announcement in class and changes to this syllabus will be posted on the course website.
